MONASH ACP Service Award 2024

Maria Garcia de la Banda

Department of Data Science and AI

**A VERY BIG
THANK
YOU**

FOR HELPING ME IN

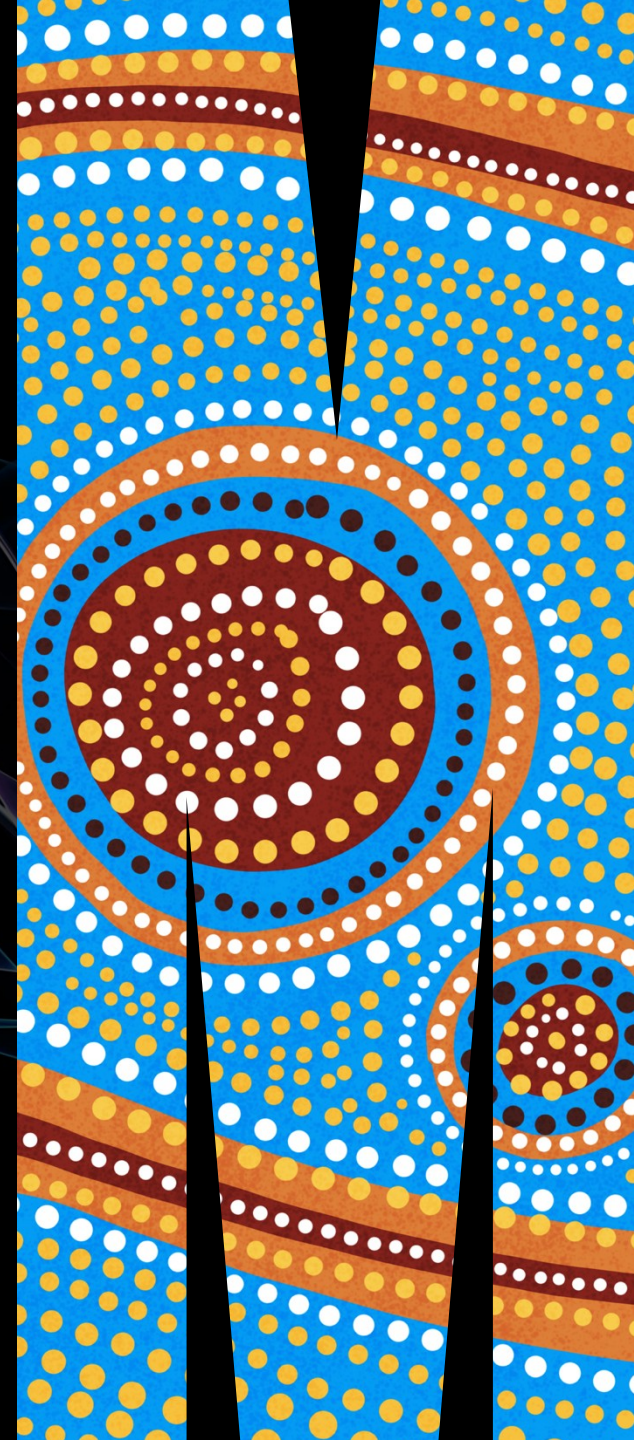

- Leading role in **shaping the CP community**, in your role as ACP President amongst others
- Driving force in **making CP research openly accessibly** by transitioning to the LIPICs publisher
- **Putting Diversity, Equity and Inclusion on the table**, leading to positive discussions and initiatives
- Serving in various **editorial** roles
- Being a **bridge between CP and other communities** such as the logic programming community

It takes a village!

I DO (DESERVE IT)

- As did Helmut Simonis, Christian Schulte, Michela Milano, Thomas Schiex, Barry O'Sullivan, Eugene C. Freuder, and Francesca Rossi
- As do others!
- Makes the CP community so wonderful
- Strongly encourage everyone to serve

WE NEED TO TALK ABOUT:

- **Research** in general, **publications** in particular
 - Publishing for the numbers not the knowledge
- **CP community:**
 - Are we getting smaller and smaller?
- **CP research area:**
 - How to increase relevance/connections and keep our soul
- **Constraints journal:**
 - Should we stop it? (it has virtually no submissions)
- **Equity, Diversity & Inclusion:**
 - Not a one-off: it needs constant care at all levels
- **Importance of service:**
 - Do it often & do it well; CP needs you!

**A VERY BIG
THANK
YOU**
